Language Arts: Ideas in the Classroom

What's 8 feet tall, 14 feet wide, weighs more than 300 pounds, and can be found at an elementary school in Shakopee, Minnesota? Older elementary students can imitate the voices of a variety of characters or create fictitious situations to present to the class. Since the majority of learning in the Hive Society centers on student inquiry, Lee is able to demonstrate her ability to formulate an argument for a position she is passionate about, such as autism, because she has spent time talking about the research on autism with her classmates, examining multiple positions and opinions while simultaneously forming her own thoughts. As the child progresses through the phonetic patterns, the teacher introduces them to literature through reading aloud and small group work, such as literature circles.

Grades K

Students Using Corkulous to Share Ideas Figure 5. Reading Research and Instruction, 44 2 , 1—20. Here are some ideas for keeping students involved in what they are reading, helping them improve their concentration and reading comprehension.
