**Koopman Rare Art**

Elkington did not perfect the process of electroplating until 1840 with the assistance of John Wright John Culme, The Dictionary of Gold and Silversmiths, Jewellers and Allied Traders 1838-1914, vol.

**Elkington & Co.**

The engraved Japanese chrysanthemum emblem on the two cartouches is of particular significance, reflecting the firm's interest under the direction of Frederick Elkington 1822-1905 in the Far East. Elkington died and the firm passed into the hands of his four sons and co-partners. Wilmms 1827-1899 previously employed by Jean-Valentin Morel in Paris headed Elkington's design team 1859-99.

**Sinai and Sons, London, Raphael and Joshua Sinai**

Brugnatelli, a friend of Volta, was the first to cover a significant area by successfully gold-plating a silver coin. Founded as a grocery store, Fortnum's reputation was built on supplying quality food, and saw rapid growth throughout the Victorian era.

**Elkington electroplate and silver plate: marks, hallmarks and date letters**

Over the course of history it became very successful and was one of the prime producers of silver plating. Copyright 1994 by Richard Redding , Zurich, all rights reserved.

**Koopman Rare Art**

Elkington was also in business at about this time with various other individuals, most noticeably his cousin, Henry Elkington with whom he conducted research into gilding base metal which led to three patents in 1836 and 1837.
