

# Applications of digital image processing XXII - 20-23 July 1999, Denver, Colorado

SPIE - Professor Yuan F. Zheng

Description: -

- Image processing -- Digital techniques -- Congresses Applications of digital image processing XXII - 20-23 July 1999, Denver, Colorado

- Proceedings of SPIE--the International Society for Optical Engineering -- v. 3808.

SPIE proceedings series -- v. 3808. Applications of digital image processing XXII - 20-23 July 1999, Denver, Colorado

Notes: Includes bibliographical references and index.

This edition was published in 1999

His prototype of a body-neck-eyes move-orient-verge-focus-zoom stereo vision camera system was a motivation for the establishment of companies such as Helpmate Robotics.

**Digital image processing**

While researching MOS technology, they realized that an electric charge was the analogy of the magnetic bubble and that it could be stored on a tiny. The Technical Program Chairs for each meeting select several oral sessions to be recorded. Critical enabling technologies to realize these potential benefits include sensors, actuators, logic, electronics, materials and structures.
