## Investing

Brazil Miami-based clean energy developer will sell solar power to British mining company Anglo American plc under a 15-year supply deal, with electricity generated by the 330 MW Atlas Casablanca photovoltaic plant under construction in the state of Minas Gerais. This expanded its operations, but more importantly the company also gained the rights to the nickel refining process. Canadian said the deal is its first power purchase agreement PPA in Mexico, where it has secured 438 MW of project generation capacity under a which appears to have been halted.

## Falcondo
