Aotearoa Books

Radiocarbon dates from West New Britain, Papua New Guinea, Australian Archaeology 12:13—15. He was made an honorary life member of the New Zealand Archaeological Association in 2000. Two concluding chapters consider the significance of the evidence for early horticulture in Palliser Bay and the nature of prehistoric communities in the area.

Aotearoa Books

Two concluding chapters consider the significance of the evidence for early horticulture in Palliser Bay and the nature of prehistoric communities in the area. As a result, one of Leach's most notable, and perhaps now least recognised, contribution to archaeology was his development of the archaeological laboratories at Otago University.
