Wastewater Treatment Plant

It needs to be properly treated before it can be disposed of — usually into the ocean. In September, a large part of the River Trent was polluted by sewage in Staffordshire. This WILL clog the system and WILL cause a backup in your home and surrounding homes.

Sewer District

Flies land on the food they eat to taste it, and raw sewage attracts houseflies. These overflows, called combined sewer overflows CSOs contain not only stormwater but also untreated human and industrial waste, toxic materials, and debris.

What Are the Dangers of Living Near a Wastewater Treatment Facility?

Airborne Hazards Chemicals from wastewater treatment facilities become airborne when they're air-stripped. Analysing wastewater can also detect markers of oxidative stress in collective samples.

Wastewater Treatment Plant

This can cause respiratory and gastrointestinal exposure.
