The 6 Elements of Design

This sheet is nothing but a PCB.

8 Landscape Design Principles

The human eye can only see the colors that are bounced off of objects. Examples of green logos include Animal Planet, Starbucks, Tropicana, Landrover, Heineken, and John Deere.

4 key principles of web design basics

It has provided me with solid foundation on understanding the visual language. Good web pages are built in response to these measured reading patterns by placing important elements, like the logo, call to action or a key image, along the axes that the reader is expected to scan.

4 key principles of web design basics

Starting the html document Starting the head tag Ending the head tag Starting the body tag Ending the body tag Ending the html document NOTE : HTML tags are not case sensitive, this means that it does not matter if you write them with capitals or small letters. .

Custom Home Design Basics

This helps you to pick up the right substrate sheet that would best fit the purpose of your circuit.
