Waterfowl Breeding & Habitat Surveys

Utquiagvik recorded its wettest year on record with 10.

Northwest Wetlands Survey

This resulted in widespread flash flooding due to the combination of new rainfall, rapidly melting snow and frozen ground. These large and dangerous fires were fanned by powerful winds, with some gusts topping 100 mph in the Sierra Nevada range. Further west, the Dakotas also set new records in 2019 for calendar year precipitation.

Publications

At the end of 2019 the California region reported 97% of median, the Great Basin at 120%, the Upper Colorado118% and the Lower Colorado 195%.

International Waterbird Census 2020

On October 1, five major climate sites Erie and Harrisburg in Pennsylvania and Huntington, Beckley, and Elkins in West Virginia had their hottest October day on record, with maximum temperatures up to 95 degrees F 35 degrees C.

Missouri Department of Natural Resources

Both sites recorded two days with a maximum temperature of at least 90 degrees F 32 degrees C in October for the first time on record.

BoEE 1974

The early November freeze in Moore County, NC damaged some of the planted strawberries. Farmland real estate growth trends also vary by region.

National Climate Report

Roofs, shingles, and siding were blown off buildings, and poles and signs were knocked down.
